Tapajós area

Roteiro Tapajós

The Tapajós area (Tapajós-Xingu interfluve) comprises a variety of environments and represents one of the most interesting regions in the Amazon, featuring high bird diversity, rich endemic species, and rarities.

A área Tapajós (interflúvio Tapajós-Xingu) é composta de uma variedade de ambientes e representa uma das regiões mais interessantes da Amazônia, com altíssima diversidade de aves, rica espécies endêmicas e raridades.

In this birdwatching itinerary, we visit three main locations: Sinop, Cachimbo Range, and Jamanxim River. The table below shows a list of species that can be found in each of these locations, along with information about their rarity and endemism.

Neste roteiro de passarinhada, visitamos três regiões: Sinop, a Serra do Cachimbo e a região do rio Jamanxim. A tabela abaixo mostra uma lista de espécies que podem ser encontradas em cada um desses locais, juntamente com informações sobre sua raridade e endemismo.

Species list

Legend: **R**- rare species; **E**- endemic species; **M**- migratory species.
Legenda: **R**- espécies raras; **E**- espécies endêmicas; **M**- espécies migratórias.
