Parnaíba area

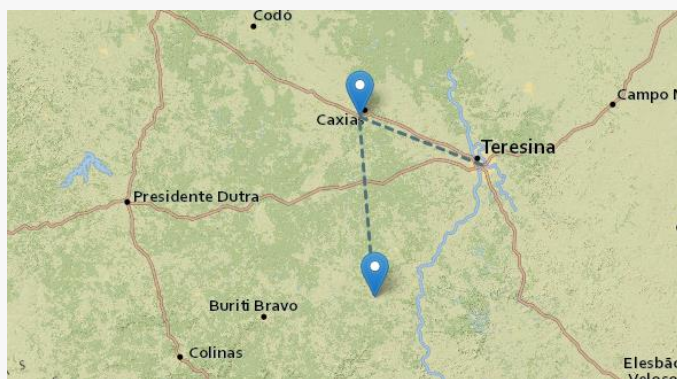

Roteiro Parnaíba

Parnaíba area is located in the east of the state of Maranhão. The local vegetation composes a post-Amazonian scenario dominated by the Cerrado, constitutes a mosaic of savannas, semi-deciduous forests, *babaçu* forests, and buriti palm valleys.

Caxias está localizada no leste do Maranhão, a vegetação local retrata um cenário pós-amazônico dominado pelo Cerrado, composto de florestas semidecíduas, mata de cocais, ambientes alagados e savanas.

In this birdwatching itinerary, we visit two cities: Caxias and Parnarama. The table below shows a list of species that can be found in these locations, along with information about their rarity and endemism.

Neste roteiro de passarinhada, visitamos duas cidades: Caxias e Parnarama. A tabela abaixo mostra uma lista de espécies que podem ser encontradas nesses locais, juntamente com informações sobre sua raridade e endemismo.
